Clear height: 200cm  
Clear width: 150cm

Note: There are ramps at the doors.

**Gate sizes:** 350cm(width) x 336cm(height)

### **Height limits**

The following limits apply in all cases, where technically possible:

Stand construction:	+6.00m above finished floor level
Advertising structures/banners:	+7.00m above finished floor level
Suspended lighting:	+7.00m above finished floor level

### **Suspension systems / Rigging**

Items may only be suspended by arrangement with the department in charge of technical matters.

### **Floor of lightweight hall**

The floor is made of wooden panels with a load-bearing capacity of 300kg/m<sup>2</sup>.

### **Important deadlines!**

#### **17.07.2026: Orders power supply, internet, suspension systems**

Orders for power/Internet/Rigging installations must have been placed with the Hamburg Messe & Congress GmbH exhibitor services team (Ausstellerservice) **by 17.07.2026**.

Please place your orders through our Online Service Center <http://hamburg-messe.de/osc/>

Installations of the above supply infrastructures will no longer be possible after 17.07.2026.

There is no compressed air supply facility. Water installations are not possible.

Please **submit all booths** to the department in charge of technical matters for checking also not later than **17.07.2026**.

#### **14.08.2026: Heavy exhibits**

Exhibits weighing more than 300kg/m<sup>2</sup> may only be brought in by arrangement and only at the start of the hall construction work.

*Heavy exhibits must be delivered to HMC 14.08.2026.*

Please liaise with the department in charge of technical matters (contact details below).

#### **Please also note the following:**

- Items may not be stuck on the walls.
- No forklift trucks are allowed in the hall.

---

#### **Please ask if you need help or advice!**

Dept. Production & Operations – Event Production, email: [ops@hamburg-messe.de](mailto:ops@hamburg-messe.de)  
The Technical Guidelines of Hamburg Messe & Congress GmbH apply.
